

Our Story

It takes a village to support our daughter Verity, who has Trisomy 18 and wasn't expected to make it to birth. The difficulty of receiving her diagnosis during pregnancy and then preparing to birth and raise a child with special needs (if she even survived) forever changed our family.

By God's grace, Verity is thriving and defying the statistics! She is the inspiration for Verity's Village, a 501(c)(3) organization which exists to help parents who receive a life-limiting diagnosis for their baby.

We assist women during a precarious pregnancy by providing mental and emotional support plus accurate, up-to-date education and resources about life-limiting diagnoses.

Our Services

From Diagnosis to Delivery + Beyond Online Support Group

This private, safe group allows parents to ask questions and learn more about their child's diagnosis, including hearing from others who have gone through the same thing. We also provide individualized support and information.

Unique Resources

We offer a special pregnancy journal and books which walk parents through the journey of carrying to term a baby with a life-limiting diagnosis. These and other resources are also available for those who work in this field to purchase in bulk.

Care Packages

Celebration and condolence packages allow us to honor these precious lives, no matter how long or short, as well as the parents who choose to carry to term.

Our Baby Will Be Different

From HEARTACHE
to HOPE

Our Mission

Verity's Village is a community providing hope, encouragement, education, and practical support for families who receive a life-limiting prenatal diagnosis for their baby.

JOIN OUR VILLAGE!

Help us spread the word.

Share our ministry with those who receive a prenatal diagnosis, or invite us to speak to your church or community group.

Help us make connections.

We work with genetic counselors, MFM specialists, pregnancy resource centers, and more.

Help us provide resources.

Support us financially as we equip and empower mothers to choose life for their unique babies.

Our Vision

Changing the narrative surrounding genetic anomalies from HEARTACHE to HOPE!
