RESOLUTION NO. 5 OF 2020

A Resolution Designating a Presumptive Neighborhood for all Liquor and Fermented Malt Beverage license applications

WHEREAS, The Board of Trustees sits as the Local Licensing Authority for liquor and fermented malt beverage license actions; and

WHEREAS, CRS 44-3-301(2)(a) requires licensing authorities to consider "... the reasonable requirements of the neighborhood, the desires of the adult inhabitants as evidenced by petitions, remonstrances, or otherwise, and all other reasonable restrictions that are or may be placed upon the neighborhood by the local licensing authority."; and

WHEREAS, the applicant has the burden of persuading the Authority that granting the license meets the reasonable requirements of the neighborhood and the desires of the adult inhabitants of that neighborhood (commonly referred to as "needs and desires"), it is important that both the Authority and the applicant understand the boundaries of the neighborhood in advance of the applicant presenting evidence at the hearing; and

WHEREAS, the Board of Trustees in its role as the Licensing Authority desires to streamline the application process and criteria;

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE TOWN OF PALMER LAKE, EL PASO COUNTY, COLORADO, AS FOLLOWS:

- For businesses that are further than 500 feet from the centerline of Highway 105, the neighborhood is a radius of 800 feet from the business.

**Recommend action:**
Adopt Resolution No. 5 of 2020 as presented.

**Background:**
The Colorado Liquor Code in CRS 44-3-301(2)(a) requires licensing authorities to consider “… the reasonable requirements of the neighborhood, the desires of the adult inhabitants as evidenced by petitions, remonstrances, or otherwise, and all other reasonable restrictions that are or may be placed upon the neighborhood by the local licensing authority.” Because the applicant has the burden of persuading the Authority that granting the license meets the reasonable requirements of the neighborhood and the desires of the adult inhabitants of that neighborhood (commonly referred to as “needs and desires”), it is important that both the Authority and the applicant understand the boundaries of the neighborhood so that the applicant can present evidence from parties in interest.

There is nothing in statute directing exactly what the “neighborhood” is to be in terms of boundaries. This can be handled by either the Authority or designated staff meeting with the applicant and setting forth appropriate boundaries based on that particular business; or by the Authority determining a presumptive neighborhood that will apply to all applicants unless the applicant asks the Authority to consider a different boundary.

Having a presumptive neighborhood streamlines the process for most applicants. Assuming that the applicant accepts the presumptive boundaries, the application can move forward without an additional step of meeting with the Authority for this purpose.

In speaking with Interim Administrator Radosevich, he recommended the geographical boundaries that are outlined in this Resolution:
- For businesses that are within 500 feet of the centerline of Highway 105 the neighborhood is a radius of 2000 feet from the business.
- For businesses that are further than 500 feet from the centerline of Highway 105, the neighborhood is a radius of 800 feet from the business.

The Board may adopt this as it is written or determine a different presumptive boundary.

There is a new license application that I just accepted that will be affected by this Resolution. If the Board declines to designate a presumptive neighborhood, the applicant will be asked to attend the next meeting in order to define that so that the application may move forward.

**Issue Before the Board**
Does the Board wish to adopt the proposed resolution?

**Financial Impacts**  None.

**Legal Impacts**  I have conferred with the Town Attorney in developing this Resolution. He will be available for comment at the meeting if needed.

**Alternatives**
- Adopt the Resolution as drafted.
- Adopt the Resolution with changes.
- Decline to act and determine each neighborhood on a case by case basis.

**Conclusion**
Defining a presumptive neighborhood is helpful to applicants and streamlines the application process. Applicants always have the right to ask the Board to define the neighborhood differently if desired.
